PAEDIATRIC THERAPY SERVICES TO CHILDREN & YOUNG PEOPLE ATTENDING BRENT MAINSTREAM SCHOOLS

Dear Colleague,

Given the current situation with Covid-19 and recent NHS guidance, our services from Speech and Language Therapy, Occupational Therapy and Physiotherapy will be restricted to Children and Young People (CYP) with highest clinical needs. We will identify these CYP and will be contacting families directly to ensure they understand how they can support their child and have access to specialist equipment required.

All other school aged CYP should have an up to date target sheet and/or written guidance which has been shared with schools and parents. We will not be routinely contacting these parents, however if they / yourselves have any urgent concerns, please contact the paediatric therapy services on:

E-mail: lnwh-tr.brentpaediatrictherapies@nhs.net

Phone on: 020 8736 7106

We will arrange to get back to you / the parent as soon as possible; we will have staff available to answer calls. Thank you for your cooperation during this difficult time, we will keep you updated on any changes.

Yours sincerely;

Maria Luscombe
Associate Clinical Director/Head of Paediatric Therapy Services
