

Staff Book Review

Journey to the River Sea

This term the year 5 Book Club really enjoyed reading all about Maia, a young orphan girl who was sent to live with her distant relatives in Brazil.

The book introduced us to the wonders and beauty of the Amazon Rainforest. We carried out research looking at just how important this amazing place is to the wellbeing of the planet including such things as medicines and global warming.

I personally really looked forward to the weekly meeting to hear all the different views from the pupils about the characters and the situations they found themselves in.
