Amazing Grace, Mary Hoffman

Amazing Grace is my favourite book because it teaches you about being the best that you can be and this was a game-changer in my mind. Its author is Mary Hoffman and I have read this book since I was about four years old. Growing up, people used to tell me that I could do or be something, but I did not believe in myself. So when my mum got me this book, it changed my mind into thinking what I can really achieve if I put my mind to it. In the book, Grace is a girl who has been told that she couldn't be who she wanted to be, but she put their words in the bin and became who she wanted to be. When I was little, I was inspired by Grace and decided to follow in her path and this made me think more positively about myself and be more confident. I rate it 5/5 because if you are looking for inspiration, this is the book to read.
