Dork Diaries

This book is called Dork Diaries by Rachel Renee Russell.

The book is about a girl called Nikki who transfers to a new school called Westchester Country Day where she finds three unique friends called Chloe, Zoey and Brandon and she finds a beastly enemy called Mackenzie.

My favourite character in this book is Zoey because she is a funny and creative person.

My least favourite character in this book is Mackenzie because she is a cold-hearted person.

An interesting fact about this book is that the first Dork Diaries book was published more than seven years ago and many years after 13 more books were published.

I would recommend this book for children over 7 years old and I would also recommend this book for children who like informal and drama books.
