

St. Joseph's Roman Catholic Primary School

Home Learning information for parents:

Class: Mrs Murphy (NM)

28/11/2025

Something to do at home:

Our focus story for the rest of the term is **'We're going on a bear hunt'**. The children have been pretending to be the family who went on the bear hunt. **Can you help your child to make a pair of binoculars so that they can use them to find the bear?**

Please continue to support your child in trying to put on and take off their coat. First place the hood on their head and then your child will push one arm in and with a little help; they can then slip their other arm in.

Literacy:

- In nursery we are learning our **sounds** following the **Read Write Inc** programme by Ruth Miskin.
www.ruthmiskin.com/en/

This week's sound is **ç**:
'snake, sun, snail, star'

- We practised how to write the letter **ç**.
- "And... *Slither down the snake*"

Complete the '**ç**' sheet.

Mathematics: Measuring Bears

- This week the children have been looking at measuring a variety of bears.
- First they had to join the cubes together to measure each bear.
- Next the cubes were lined up against the bears to see how tall or short they were.
- The children were trying to find which one was the tallest and which was the smallest bear.

CL/L: We're going on a bear hunt'

This week the children have been outside pretending to be part of the family who went on the bear hunt. They were using the masks to be the characters from the story. The children went through the different parts of the repeated refrains and some actions.

Please return the book bag on Wednesday.
