Summary:

I loved this book and it is about a cheeky monkey that is always trying to make trouble where he lives. So let me tell you a little bit more about the book, so there is a monkey that owns one part of the forest and there is a bunny that has 2 other friends Pig which is a pig and minnie which is a squirrel and they (all) own the other part of the forest. The monkey finds a friend called skunk and skunk makes a new invention every single day. My ^{5th} (11) favourite story was when, Skunk made a wish cannon and whatever you are thinking about it would shoot that thing out and it all began when monkey switched a cupcake with the wish canon and anything that pig thought the wish canon would shoot it out. My 2nd favourite story was when, pig, bunny and minnie were making a clown show and then monkey started to ruin it by throwing stuff and cake at them. My 3rd favourite story was when ^{Le fox} Bunnie, pig and minnie made a deal to do a fight against Skunk, Monkey and an invention called croc and blind guy and they all played and bunnie, minnie, pig won. My 4th favourite story is when monkey dressed up like an empire and tried to scare Le-fox, Bunnie, minnie and pig but he couldn't. My last but not least favourite story is when, Bunnie, Pig and minnie found a bear but they thought it was a lion so they put a hat on him but when Bunnie said it was a bear he took off the hat and ran straight home.

I recommend this book to everyone because there is some stories that are more for children, some more for adults and some for elderly but the book is a really funny and interesting book to read. Even me that doesn't like reading did not want to stop

reading because books make you not want to stop reading. This is because it might be interesting and you want to know what will
