Class: Mrs Murphy

20/03/2026

Science workshop: Curiosity...What is your question?

On Thursday last week the children took part in the first ever Science workshop. They really enjoyed the hands on experience and were happy to take part in as many of activities as they could.

First they got to experience giant bubble making where they used the big hoop to make the giant bubbles.

The next activity was to get the light bulb to light up while all of the children held each other's hands to create a big circuit.

CL/UW: Farm or Jungle?

This week the children had to separate the farm and wild animals.

They had to decide where the animals lived. Do they live on a farm or live in the jungle?

Do the cows live in the jungle?
Would a lion live on a farm?

RE: Desert to Garden

This week the children listened to the story of `Good Friday`.

The children then looked at different types of crosses in the classroom.

The cross is a sign of a Christian and someone who loves Jesus.

We wear crosses, there are crosses on walls and a cross with Jesus on it is called a crucifix.

Phonics:

This week's sound is "b":

beautiful, berry...

"And... Down the laces to the heel,
toe".
