2D shapes and Loose parts

The children are continuing to explore 2D shapes by using loose parts. They use the loose parts for a hands on experience, to explore the different shapes.

The children are using a variety of objects and must put them around the 2D shapes.

Mathematics: 2DShapes

This week the children had fun playing a shape game. For this game the children had to find the 2d shape on the mat, say the name of the shape and then go and stand on it.

Something to do at home:

Can you get your child to draw a picture of something they did over half term? Get them to write their name on their work also. Hope everyone enjoys their half term.

Phonics:

This week's sound is "sh": shop ship, sheep...

We learnt that 'two friends make one sound'

These are special friends and they always stay together.

"shhh..." said the horse to the hissing snake.

Read Write Inc.

Please put your child's work into the green file and return the book bag each Wednesday.

Remember to check Google classroom for updates and work.
